The Department of Medicine at Stanford is recruiting a **Chief for the Division of Infectious Diseases and Geographic Research** to lead the research, clinical, and educational activities of the Division. The faculty position is at the Associate Professor or Professor level in the University Tenure Line, and the successful candidate should be an accomplished physician investigator with a national/international reputation. Candidates should be Board Certificated in Infectious Diseases. Our goal is to develop a premier Division of Infectious Diseases and Geographic Medicine. The Chief will be expected to recruit additional faculty to support both laboratory and clinical research and to expand the clinical practice of the faculty. The Chief is expected to strengthen the currently highly competitive fellowship program and increase its focus on the research opportunities so prevalent at Stanford. The Division of Infectious Diseases and Geographic Medicine benefits from an outstanding scientific and clinical environment at Stanford, including collaborations with the basic science departments, Bioengineering, and the Stanford Institutes, including Stanford Institute for Stem Cell Biology and Regenerative Medicine, the Stanford Cancer Center and the Woods Institute for the Environment.

Candidates should submit a detail letter of interest, curriculum vitae, and the names of three references to: Andrew Hoffman, M.D., Chair of Search Committee and Vice Chair of Academic Affairs, **Stanford University School of Medicine**, c/o Lisa Ha, 300 Pasteur Drive, MC: 5107, Stanford CA 94305-5107.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and application from women and members of minority groups, as well as others who would bring dimensions to the university's research, teaching and clinical missions.
