

Director, Division of Physiological and Pathological Sciences – CSR, NIH

Bethesda, MD <http://jobsearch.usajobs.gov/ftva.asp?seeker=1&JobID=75722857> (DPPS)

MAJOR DUTIES:

The Director provides scientific leadership for the Division by tracking critical macro issues related to the broad fields of science within the purview of the division, advising the Director, CSR, and other NIH officials on scientific issues relevant to the Division and its mission, and representing CSR within and outside of NIH.

As the Director, you provide leadership to and management of approximately 50 Scientific Review Officers (SROs), oversee program activities conducted by several Integrated Review Groups (IRG), supervise 5 IRG Chiefs in managing a broad range of human resources issues, recruit and mentor, and ensure that principles and practices related to the conduct of peer review are applied in a consistent manner across the Division, and oversee management of the Division's budget allocation.

You will also serve as a key member of the Center's senior leadership team, participate in strategic planning activities for the Center's scientific and management goals, establish principles and practices related to referral and review, and direct the implementation of program and management goals by establishing priorities, coordinating activities, and tracking and reporting progress.
